The Local partner chosen is “Working with the 99%” which is a **non-profit organization**, a cooperative established in 2016, aimed at the development of **participatory processes, design and production of public policies and strategic development**.

It is part of the European network ReKreators, DLBC Lisbon and Placemaking Europe, having actively participated in the discussion around the creation of the European Urban Agenda – Amsterdam Pact (2016) and the Portuguese Housing Law (2019).

Quinta do Ferro

Right in the centre of Lisbon, Quinta do Ferro is a small neighbourhood with degraded houses and public spaces where approx. 130 families live there.

The cooperative developed an Urban participated Plan for the requalification of Quinta do Ferro in 2017.

The plan provides for the rehabilitation of houses and the creation of a square, a kindergarten, an underground car park and arrangements of public spaces. It was never approved by the Municipality.

It might be an interesting case study for workshops...

PALÁCIO MARQUÊS DE ABRANTES
Selected project for EU Mies award
final shortlist 2022

The cooperative has been selected
and awarded at national and
international levels as:

PEDROGÃO GRANDE
Selected project for International
architecture exhibition Biennale 2021
in Venice

PRODAC SUL
Financed by BIP-ZIP project 2016
(Municipality of Lisbon)
