Salvatore Carlucci (SC)	Roberta Cocci Grifoni (RCG)	

Chair: Ioanna Kyprianou (IK)

Minutes

1. Revising the Framework

The framework. The discussion also clarified which papers to include, indicating that all components of the Che partners had completed the task with the 5 example papers and offered comments on how to further improve the FrIMO approach should be fulfilled for a paper to be considered eligible. The option for "unsure" papers was also added, along with a new "Comments" column to provide justification. The final decisions for the unsure papers will be made by the leading partner for this task (CYI). Moreover, review papers will not be included in the final pool of papers, but the framework should be filled in for useful information that could be used in other parts of the deliverable. Due to the large number of papers assigned to each partner, it was agreed that should there be any difficulties in meeting the next deadline, papers would be re-distributed to expedite the review process.

2. Timeline

22/4 All partners complete the framework for their assigned papers
