

WELCOME TO CliC+HE

Climate Change, Cities, Communities and Equity in Health
Ka220 HED-Progetto n. 2021-1-IT02-KA220-HED-000032223

LECTURES May 08 and May 15 2023, online

The **CliC+HE Lectures** aim to stimulate a critical interdisciplinary debate on Urban Regeneration of European cities and constitute a useful deepening of the "CliC+HE" methodology for the training of European university students of different disciplines. In the spirit of CliC+HE the topic of urban regeneration is addressed from multiple perspectives: - climate adaptation at the local and global dimension (CYI) - the project's implications through public space design (UBFA); - urban health and urban planning responsibilities in contributing to improving people's lives in cities (IFT CNR); - the role of the local community in experimenting with the model of the 15 minutes city (ISCTE); - finally, the neighborhood scale, which at European level seems to be the optimal size to make cities sustainable and more on a human scale (UNICAM). During the various lectures the speakers, involved in various ways in the CliC+HE project, will present their recent, innovative research and will open up to discussion with colleagues and students. The seminars are aimed at students, PhD students, research fellows and researchers and will be part of the tools made available by the research group for European Universities.

May 08, 2023

- 10:00 **UNICAM**
Introduction
- 10:05 **CYI**
Climate modelling: from global to local
- 10:25 **UBFA**
Climate adaptation through public space design
- 10:45 **ISCTE**
15 minutes proximity and citizens participation. Notes from Lisbon
- 11:05 **UNICAM**
Urban regeneration at the neighborhood scale: comparing European experiences.
- 11:25 Debate

May 15, 2023

- 10:00 **UNICAM**
Introduction
- 10:05 **IFT CNR**
Climate adaptation through fostering health perspective in urban planning
- 10:25 Debate
